

CAPS™ Connect ES

Research, Analyze, Select

Web-based enterprise portal providing comprehensive BOM and product reporting

Connect ES 8.0 just released

- **BOM / AVL Cleansing and Data Scrubbing**
“Garbage-in – Garbage-out” inefficiencies due to duplicate and incorrect part numbers are very costly. CAPS Connect ES normalizes data to correct and update part numbers and other critical BOM details, reducing costly inefficiencies due to duplicate and incorrect part numbers.
- **Manufacturer Name Cleansing**
Robust manufacturer alias table assists with correcting typos and duplicate names due to mergers and acquisitions.

Navigate the world’s supply of electronic components and component data on over 160 million electronic components from your Web Browser!!!

About Us

PartMiner WorldWide Inc. provides electronic component procurement services to thousands of electronic manufacturing companies around the world. PartMiner collects and interprets worldwide market intelligence and component data from manufacturers, distributors, and other supply sources. PartMiner’s CAPS database is the leading source of technical information in the industry delivering complete data sets on more than 150 million individual electronic components from more than 1800 active manufacturers.

PartMiner is headquartered in Centennial, Colorado, USA and has US offices in New York, California, Florida and Massachusetts. International locations include Brazil, China (Shenzhen, Shanghai, Suzhou, Beijing, and Hong Kong), France, Germany, India, Israel, Mexico, Singapore, Sweden, and the United Kingdom.
